

Mikumi Genesis Hotel

Mikumi Genesis Hotel is located in the town of Mikumi in southern Tanzania.

This popular meeting place is situated alongside the main Tanzania Zambia highway around 4km west of the reserve and just outside Mikumi town.

Commonly included in budget overland safaris, the thirty rooms are contained within thatched bandas, supported by reasonable bar and restaurant areas.

Alongside is a small reptile park, which is essentially a modest collection of glass-fronted pens in which various snakes and other reptiles are contained.

The whole is widely reported to be variable in quality and generally over-priced.
